I've had the pleasure of knowing and working with Farid Eghbali for over the last 10 years. Over those years, Farid has helped treat hundreds of mutual patients in an outstanding and excellent manner. He is a consummate professional providing thorough and skilled care using sound judgement and state of the art techniques to evaluate and treat a variety of eye ailments. He provides primary vision care ranging from sight testing and correction to the diagnosis, treatment, and management of a variety of eye diseases. He often cares for and manages some of the most difficult patients in my practice. He presents with excellent interpersonal communication skills, especially as it relates to his bedside manner. Above all, his ethics are beyond reproach. He is a well-established clinician in our community and is always well received by my patients, as well as by my physician colleagues. I consider him to be one of the finest clinicians that I've had the privilege of working with. It is without hesitation that I recommend Dr. Farid Eghbali for your eyecare needs.
